

BOX HOOD

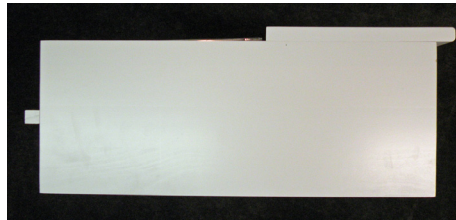

WOLF Classic Cabinets' new BOXHOOD offers incredible versatility.

The front "shelf" creates an attractive shadow line while the completely flat front allows for a variety of design elements from tile, to embellishments to moulding details and so much more!

If you flip the unit upside down, you can even use our new CORBELS to create a traditional look.

The back is unobstructed making installation of venting easy.

Let your imagination run and simply pair this hood with your choice of cabinet.

Available in all styles & colors.
